NATIONAL GROWTH

Measured by number of girls we've taught in each state.

CHICAGOLAND

+775 GIRLS

NORTH CAROLINA

+100 GIRLS

TENNESSEE

+450 GIRLS

PITTSBURGH

+100 GIRLS

OTHER STATES

+775 GIRLS

MARYLAND

+100 GIRLS

THE IMPACT:

80%

of girls surveyed after taking one of our workshops say that they've **changed their mind positively** about pursuing a career in tech.

53

DIFFERENT TOPICS

TECHSHOPZ IN A BOX™

We created TechShopz in a Box™ - short, interactive tech workshops designed with volunteer instructors and girls in mind. They are **free** for anyone to use.

We believe there's more to tech than coding. That's why our TechShopz in a Box™ cover:

Game Development

Artificial Intelligence

Web Design

Robotics

Python & Javascript

Cybersecurity

2018 campers present the Arduino robots that they built using C and C++ to friends & family.

SUMMER CAMP 2018

Robotics with Arduino

Our 2018 Summer Camp was a huge success. The girls had an amazing week building and programming their obstacle-avoiding robots using C++ and the Arduino IDE.
